2015/7220/P	Igor	Knollys House 39 Tavistock Place w1H 9sa London	22/02/2016 15:31:46	OBJLETTE R	I am Knollys House resident (directly opposite the Generator Hostel) and I strongly object the installation of this Antennas; they are not only unsightly but also harmful to those continuously exposes to their emissions. It is a decision that all of us living in the surrounding area should take together as it will affect us mostly. Also if Camden Council has refused to have it built in their own building why should we have it? Is that not a sign we should not have it either? It is important that we protect the living standards of our city.
2015/7220/P	Amanda Parnell	Flat 2 Knollys House 39 Tavistock Place London WC1H 9SA	25/02/2016 12:25:00	APP	These antennae are a major cancer risk especially for the young. Other boroughs have and are removing them from public buildings schools and hospitals because of these risks. These are not in keeping with the Bloomsbury conservation area. They are in no way an improvement to the area and environment are an eyesore. These antennae are a money making scheme for the businesses and bring nothing for the community.
2015/7220/P	David Penty	Flat 7 Knollys House 39 Tavistock Place	22/02/2016 21:32:39	COMMNT	The proposed antenna will be an eyesore and are not in keeping with the aims of the Bloomsbury Conservation area. They are also potentially a health risk.
