The proposed internally illuminated surround relates to the lettering and light strips to the panel, which would not obscure any architectural features or otherwise visually harm the appearance of the building, and is considered to be acceptable in terms of its size, design, location and method of illumination.

The proposal raises no public safety concerns nor would it be harmful to pedestrian or vehicular safety.

The site's planning history and relevant appeals have been taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

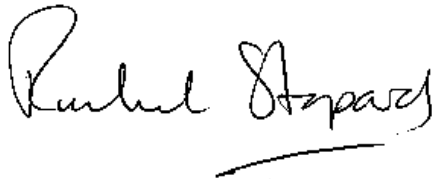

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25, and DP26 of the London Borough of Camden Local Development Framework Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of The London Plan March 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 56-68, and 126-141 of the National Planning Policy Framework.
