Dear Mr McClue

I wanted to register a formal objection to the works proposed at 26 Denning Road application number 2015/3593/P on the grounds of the noise and disruption it will inevitably cause over a long period. My son is recovering from a Bone Marrow Transplant and the type of air pollution generated by heavy building works can cause serious fungal infections, as well as restricting walking outside. Additionally, I am advised that there is inadequate BIA.

Kind regards

Sarah Robertson
