Informative(s):

- 1 Reason for granting consent:

The proposed internally illuminated fascia sign, formed of a backlit door number and street name, is considered to be acceptable in terms of location, size, materials, design and method of illumination. The proposal will relate solely to the residential entrance to the building with only the letters to be illuminated which will produce a discreet addition to the lower part of the elevation.

The proposal will not harm the setting of adjacent listed buildings and will enhance the architectural interest of the host building and the appearance and character of the streetscape and the conservation area.

The proposal will not impact on the neighbours' amenity nor would it be harmful to either pedestrian or vehicular safety.

The site's planning and appeal history has been taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas Act) 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5, CS14 and CS17 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015 consolidated with alterations since 2011; and paragraphs 14, 17, 56 -67, 126 -141 of the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
