Objection to Planning Application - 2015/2089/P

I am writing with an objection to planning permission which has been requested at 11 Rossllyn Hill London NW3 5UL.

I realise that this proposal is new, however my previous objection has not been addressed and still stands.

I strongly object to this application on the grounds that the noise from building equipment will render the neighbouring

business of Air Studios inoperable for an extended period.

Air Studios has been for 20 years a recording studio for films and other major Hollywood productions. As one of the many hundreds of musicians working in London, I rely on this studio as one of only two studios still in existence which can record a full symphony orchestra. If Air Studios was unable to operate as a recording studio across that sort of timescale, it would be inevitable that in particular our foreign clients from both America/Hollywood as well as elsewhere seeking to score here would have no alternative but to look and go elsewhere in Europe or in Australia or even remain at home for their scoring sessions. Thereafter you can count on them not returning.

This subterranean building work will impact the livelihoods of hundreds of people - musicians, engineers, assistants, and local hotels, pubs, restaurants, taxi firms will also suffer loss of earnings.

If London musicians cannot make a living from recording music in Air Studios, we will not be able to continue subsidising less-profitable artistic projects, and the arts and culture of London and the UK will continue to shrink.

I do not want this to happen.

Thank you for your consideration.

Yours faithfully,

Anna
