Your comments on the planning application Re 2015/7079/P and 2015/7300/L
11 Roslyn Hill

To whom it may concern,

I have already objected to the original planning application put in by the owners of this address, and it is wholly unreasonable to not treat our original objection as applying to this second application and any further applications. Our initial objections should be carried forward for any subsequent planning applications. They are clearly just

tweaking the details, and trying to get round the objections by seeking loopholes in the system!

My objections remain... ANY building work would mean Air Studios would have to close for the duration of the building works, as obviously the noise, disruption and vibration would make it impossible for any recording to take place in any of the studios.

Even a short closure time, would mean that projects would go elsewhere and possibly not return to London. This would mean loss of many peoples' livelihoods and of course the closure of one of only 2 big space recording venues in London. London is one of the premier centres in the world for recording music scores for films and pop tracks.

There are not only staff that work there that would lose their jobs, but also many freelance musicians, sound engineers, catering staff and receptionists who would all lose their livelihoods.... not to mention the money they put into the wider economy in the local area where they work.

Please save a valuable industry, and one that generates an awful lot of money for the treasury by way of taxes!
