Your comments on the planning application

I frequently work at Air Studios, Lyndhurst Road, on many music recording projects and this new application once again makes no effort to address the potentially devastating noise and disturbance issues that the building works will create for the studio and which, in turn, could render the studio unusable for a considerable (and unknown) length of time affecting not just for me but in particular for many of my colleagues who are musicians, engineers and producers. Air studios is a world class film music scoring studio and should be preserved as such in perpetuity without compromise.
