THE FIRST SCHEDULE
Construction Management Plan
Highway Measures

A Construction Management Plan outlines how construction work will be carried out and how this work will be serviced (e.g. delivery of materials, set down and collection of skips), with the objective of minimising traffic disruption and avoiding dangerous situations and minimising the impact on local amenity. A Construction Management Plan should cover both demolition and construction phases of development. Details of the Construction Management Plan will relate to the scale and kind and location of the development and they should assess the impact on transport and on local amenity including road user amenity. Should any one of these criteria be considered not to be relevant, then specific justification, as to why that particular criterion is not relevant, will need to be provided. The Construction Management Plan should demonstrate that the following has been considered and where necessary the impacts mitigated:

(Note the term 'vehicles' used here refers to all vehicles associated with the implementation of the development, e.g. demolition, site clearing, delivering of plant, material and construction, staff parking etc)

- a) A brief description of the site, surrounding area and development proposals for which the Construction Management Plan applies.
- b) Proposed start and end dates for each phase of construction.
- c) The proposed working hours within which vehicles will arrive and depart.
- d) The access arrangements for vehicles.
- e) Proposed routes for vehicles between the site and the Transport for London Road Network (TLRN). Consideration should also be given to weight restrictions, low bridges and cumulative affects of construction on the highway. A map of the TLRN can be downloaded from the following site:-

http://www.tfl.gov.uk/assets/downloads/TFL_Base_Map_Master.pdf
- f) Typical sizes of all vehicles and the approximate frequency and times of day when they will need access to the site, for each phase of construction.
- g) Swept path drawings for any tight manoeuvres on vehicle routes to the site.
- h) Details (including accurate scaled drawings) of any highway works necessary to enable construction to take place.

- i) Parking and loading arrangement of vehicles and delivery of materials and plant to the site.
- j) Details of proposed parking bays suspensions and temporary traffic management orders.
- k) Proposed overhang (if any) of the public highway (scaffolding, cranes etc.).
- l) Details of hoarding required or any other occupation of the public highway.
- m) Details of how pedestrian and cyclist safety will be maintained, including any proposed alternative routes (if necessary), and any Banksman arrangements.
- n) Details of how traffic associated with the Development will be managed in order to reduce congestion.
- o) Details of any other measures designed to reduce the impact of associated traffic (such as the use of construction material consolidation centres).
- p) Details of how any significant amounts of dirt or dust that may be spread onto the public highway will be cleaned or prevented.
- q) Details of consultation on a draft Construction Management Plan with local residents, business, local groups (e.g. residents/tenants and business associations) and Ward Councillors. Details should include who was consulted, how the consultation was conducted and the comments received in response to the consultation. In response to the comments received, the Construction Management Plan should then be amended where appropriate and where not appropriate a reason should be given why not. The revised Construction Management Plan should also include a list of all the comments received. You are advised to check your proposed approach to consultation with the Council before carrying it out.
- r) Details of any Construction Working Group that will be set up, addressing the concerns of surrounding residents, as well as contact details for the person responsible for community liaison on behalf of the developer, and how these contact details will be advertised to the community.
- s) Details of any schemes such as the "Considerate Contractors Scheme" that the project will be signed up to should form part of the consultation and be notified to the Council. Contractors will also be required to follow the "Guide for Contractors Working in Camden" also referred to as "Camden's Considerate Contractor's Manual"

- t) Details of other construction sites in the local area and how your Construction Management Plan takes into consideration the cumulative effects of construction local to your site.
- u) All contractors and sub-contractors operating large vehicles over 3.5 tonnes must meet all of the following conditions:-
- 1) Operators must be a member of TfL's Fleet Operator Recognition Scheme (www.tfl.gov.uk/fors) or similar at the Bronze level.
 - 2) All drivers must have undertake cycle awareness training such as the Safe Urban Driver module through FORS or similar.
 - 3) All vehicles associated with the construction of the Development must:
 - i. Have Side Guards fitted, unless it can be demonstrated to the reasonable satisfaction of the Employer, that the Lorry will not perform the function, for which it was built, if Side Guards are fitted.
 - ii. Have a close proximity warning system fitted comprising of a front mounted, rear facing CCTV camera (or Fresnel Lens where this provides reliable alternative), a Close Proximity Sensor, an in-cab warning device (visual or audible) and an external warning device to make the road user in close proximity aware of the driver's planned manoeuvre.
 - iii. Have a Class VI Mirror
 - iv. Bear prominent signage on the rear of the vehicle to warn cyclists of the dangers of passing the vehicle on the inside.
- v) Any other relevant information with regard to traffic and transport.
- w) The Construction Management Plan should also include the following statement:-

"The agreed contents of the Construction Management Plan must be complied with unless otherwise agreed with the Council. The project manager shall work with the Council to review this Construction Management Plan if problems arise in relation to the construction of the Development. Any future revised plan must be approved by the Council and complied with thereafter."

It should be noted that any agreed Construction Management Plan does not prejudice further agreement that may be required for things such as road closures or hoarding licences

Dear Sir/Madam

DRAFT

FOR INFORMATION ONLY - THIS IS NOT A FORMAL DECISION
Town and Country Planning Act 1990 (as amended)

DECISION SUBJECT TO A SECTION 106 LEGAL AGREEMENT

Address:
4 Frognal Close
London
NW3 6YB

Proposal:

Removal of the existing single storey side extension and erection of a part two storey and part single storey side extension with a single storey extension to the rear of the property. The replacement of all existing (non original) painted timber windows and pvc windows with slim profile metal double glazed casement windows.

Drawing Nos: L(PL)4FRG-302R5, L(PL)4FRG-301R5, L(PL)4FRG-100, L(PL)4FRG-101, L(PL)4FRG-102, Pre-development Arboricultural Survey and Report Ref:WAS13-2015-Rev1.

DECISION

The Council has considered your application and decided to grant permission subject to the conditions and informatives (if applicable) listed below **AND** subject to the successful conclusion of a Section 106 Legal Agreement.

The matter has been referred to the Council's Legal Department and you will be contacted shortly. If you wish to discuss the matter please contact **Aidan Brookes** in the Legal Department on **020 7 974 1947**.

Once the Legal Agreement has been concluded, the formal decision letter will be sent to you.

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans:

L(PL)4FRG-302R5, L(PL)4FRG-301R5, L(PL)4FRG-100, L(PL)4FRG-101, L(PL)4FRG-102, Design & Access Statement, Pre-development Arboricultural Survey and Report Ref:WAS13-2015-Rev1.

Reason:

For the avoidance of doubt and in the interest of proper planning

- 4 Prior to the commencement of any works on site, details demonstrating how trees to be retained shall be protected during construction work shall be submitted to and approved by the Council in writing. Such details shall follow guidelines and standards set out in BS5837:2012 "Trees in Relation to Construction". All trees on the site, or parts of trees growing from adjoining sites, unless shown on the permitted drawings as being removed, shall be retained and protected from damage in accordance with the approved protection details.

Reason: To ensure that the development will not have an adverse effect on existing trees and in order to maintain the character and amenity of the area in accordance with the requirements of policy CS15 of the London Borough of Camden Local Development Framework Core Strategy.

- 5 A sample panel of the windows demonstrating the proposed colour, texture, face-bond and pointing shall be provided on site and approved in writing by the local planning authority before the relevant parts of the works are commenced and the development shall be carried out in accordance with the approval given. The approved panel shall be retained on site until the work has been completed.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24

and DP25 of the London Borough of Camden Local Development Framework Development Policies.

Informative(s):

1 Reasons for granting permission:

The proposed part two storey, part single storey side and single storey rear extensions would be constructed in materials to match the existing building with the footprint of the proposed side extension being similar to that of the existing single storey side extension. The footprint of the rear extension would allow for the retention of a generous proportion of the garden area. The extensions would sit comfortably with the host building being subordinate in scale and designed to relate architecturally to its proportions and appearance. The extensions would not be visible from the public realm and would have a limited impact on the visual amenity of the surrounding area. They would preserve the character and appearance of the Redington Frogna Conservation Area and would have no adverse impact on the setting of the nearby listed building at No.5 Frogna Close.

The proposed replacement windows would replace the existing non-original windows on all the elevations of the building. The intended metal ultra-slim framed replacements are deemed to be acceptable and would be similar to those of the original house. Subject to a condition requiring details and samples of the replacement windows to be submitted and approved, they would respect the character and appearance of the host building and the surrounding area.

The proposed rear and side extensions are appropriately designed and located sufficiently distant from neighbouring properties so as not to result in any adverse impact on residential amenity in terms of loss of light, outlook, overlooking or privacy.

Control over how the development is implemented, including demolition works and construction, would be through a Construction Management Plan (CMP) as the site is located on a cul-de-sac and there may be problems with large construction vehicles accessing the site from Frogna in an efficient and safe manner. A CMP would therefore be secured by way of a Section 106 legal agreement.

A Pre-development Arboricultural Survey has been submitted with the application. The proposals have been reviewed by the Council's Tree Section and no objection has been raised subject to a condition requiring details of how trees to be retained on the site are to be protected during the course of construction.

No objections were received prior to making this decision. The site's planning history and relevant appeal decisions were taken into account when coming to this decision. Considerable importance and weight has been attached and special attention has been paid to the desirability of preserving or enhancing the character

or appearance of the conservation area, under section 72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP22, DP23, DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015, consolidated with alterations since 2011; and paragraphs 14, 17, and 56 -66 and 126-141 of the National Planning Policy Framework.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts which cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Argyle Street WC1H 8EQ, (tel: 020-7974 6941).
- 3 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Compliance and Enforcement team [Regulatory Services], Camden Town Hall, Argyle Street, WC1H 8EQ (Tel. No. 020 7974 4444 or on the website <http://www.camden.gov.uk/ccm/content/contacts/council-contacts/environment/contact-the-environmental-health-team.en> or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.

Yours faithfully

Culture and Environment Directorate
