

Planning Application  
2016/0197/P.  
F.P.O. PATRICK MURPLETT

Flat 2nd  
59 Swinton  
WCS x 9A  
26-2-

Dear Sir,

In response to the application for 61-65 Swinton  
we to tender the following objections.

- ① A bar/restaurant on the ground floor and basement a  
quite a large restaurant with which will  
extra noise and disturbance with customers  
and going and an increase in traffic pollution  
there be diners on the pavement outside?
- ② The hotel will cause a lot more footfall and  
extra traffic and pollution from taxis and  
arriving and departing at all hours. We  
have a hotel two doors down (Aria) and  
constantly disrupted by cases being rolled  
along the pavement at all hours. There is also  
very large hotel on the corner of Swinton St  
in Road (Tenn Hotels) which wakes me up  
with middle of the night deliveries - Another  
would really be too much.
- ③ The lightwell to the front will seriously  
on my privacy.

(2)

- (4) The huge extension to the back will sure interfere with the light to my flat and - mean potentially that my privacy is in by being overlooked by hotel guests.
- (5) I have already made objections to this plan in Aug 2015 and this application seems to be exact same works. I had assumed that permission had already been given as there a lot of major excavation and other work done during the winter months with the plot being constantly covered in mud and dust they have permission to do this?
- (6) I suffer from Asthma (COPD) which is and severely affected by the Dust and Dust which were working next door. I have also been diagnosed with Cancer for which I have regular treatment which me extremely tired and needing to rest after all the work next door to my bedroom really does not help.

Please take account of the above when arriving at your decision

Yours faithfully
