2015/4994/P	Catherine Graham-Harrison	22 St Albans Road	08/03/2016 21:39:58	COMMNT	<p>All over the country, residential properties are being diminished by poor quality alterations even when classed as minor.</p> <p>In this case, no information is given as to which window is to be replaced or the style of it so it is very difficult to make a judgement.</p> <p>In the circumstances I can only ask that the Planners insist that its style, i.e. shape, glazing bars etc match the remaining window and ensure that the replacement is in wood, as in the application, and not in PVC. Also that sample of the type of double gazing is checked to ensure that it's of sufficiently good quality. Thanks</p>
