Your comments on the planning application

I wish to object in the strongest possible terms to the proposed basement (and sub basement) proposals at 11 Rossllyn Hill.
The sole reason for my objection is that the property neighbours Air Studios, and that the noise and vibration caused by such extensive excavations will render the studio unusable for the duration of the development.

Air Studios is one of only 2 studios in London large enough to accommodate a full symphony orchestra (the other being Abbey Road) and attracts the sound recordings of many

Blockbuster film soundtracks every year. This mini industry for London's musicians (instrumentalist and singers) is thriving and world leading. If the studio must close for 6 months as a result of the actions of the residents of 11 Rossllyn Hill, the work will go elsewhere (outside the country) and the studio may be forced to close permanently, affecting hundreds of London musicians/technicians.

The potential loss of earnings in this case would reach millions of pounds, and if Air Studios were to collapse financially due to this development the potential loss of earnings in such a case would reach 100s of millions of pounds.

Who in Camden, London or the UK would wish to see the collapse of an such an iconic musical asset founded by the late Sir George Martin that is a thriving business and success story for Britain?

No one in their right mind I would hope. Please Stop this pointless and selfish development!
