Your comments on the planning application

A basement conversion should never be built where it affects the immediate neighbours and any businesses for the long term. In this case it could have catastrophic affects on the famous Air Studio's, where an absolute total silence is needed at all times. This studio has recorded film scores & music scores so famous that everybody in Camden council offices will have listened or watched something either on TV/DVD or at the cinema which will have been recorded there. Surely it is a business that the borough should be so proud of that they will do anything to protect its closure. I object.
