Dear Mr Peres Da Costa

Re: 36 Redington Road, London NW3 7RT - Planning Application 2015/3004/P

Thank you for your email. There are two further copies of the SER which have been uploaded on the website, the one you refer to and one labelled 2.ZB impact assessment 17.12.15 (1). I have tried to compare the two versions and as far as I can see the only change is on page 21. Is this correct?

The last version was accompanied by a letter from ZB dated 17th December 2015 in which ZB addressed some of the outstanding points. I cannot see that they have addressed the question of whether the change in construction methods increase the risk to damage to 7 Redington Gardens as recommended by Southern Testing.

I trust that any further information provided will be uploaded without delay. Our consultants do not wish to comment further until they have the whole picture.

I would appreciate receiving direct a copy of the further revised audit Campbell Reith are now preparing.

Many thanks for your help.

Regards

Philip Beckman
