

Application Ref: 2013/3383/P
62a Grafton Terrace
NW5 4HY

hello rob

this is shiu kay kan
i am an established lighting designer and lighting architect for 37 years.
i live for 26 years in 8A southampton road
and have a beautiful garden which is directly affected by the block of sun light and degree of privacy.
also having a garden to grow some vegetables is becoming
a rear commodity in London....now.
that i feel is over developed
and make ageing life more difficult,
eroding the freedom of existence.

for these strong reasons of health and sun light
i do not think the building permission of the above application
should be granted.

please do not hesitate to contact me by phone or mails if you have further queries.

Kind Regards,

Shiu-Kay Kan
lighting architect RIBA and designer world wide
