2015/7079/P	Patrick Williams	Archway house 21 Clapham Common NorthsideCommon Nside London SW4 0RQ	16/03/2016 16:07:51	OBJ	<p>Dear Mr Tulloch</p> <p>Once again, your `IT department lets you down. Today, 2 sets of comments(numbering 9 in each) are unobtainable, but for One comment from each set- the remaining 8 cannot be read.</p> <p>Please advise your IT department to reset/adjust, or whatever needs to be done to make these comments accessible to view.</p> <p>Once again, I must also point out that my previous comments regarding the IT problems have been posted a multiple of times, which is not necessary . And my difficulty in accessing a group of 51 comments from early March resulted in my posting further copies, also by Royal Mail: my original was in the group of 51, and some of my subsequent efforts were also multiply published-also unnecessary .</p> <p>So, not only is time taken to participate in this planning consultation ( which requires a lot of time reading/scanning the documentation) but a subsequent quantity of time is completely wasted chasing the resulting publication of mine, and some other submissions.</p> <p>How is this IT malfunction allowed to repeatedly happen happen? please don't publish this 4 times, as before</p> <p>yours sincerely Patrick Williams</p>
