

Notes:
 Drawings are based on survey data and may not accurately represent what is physically present.
 Do not scale from this drawing. All dimensions are to be verified on site before proceeding with the work.
 All dimensions are in millimeters unless noted otherwise.
 Purcell shall be notified in writing of any discrepancies.

Key Plan
 not to scale

METHOD STATEMENT FOR PAINT REMOVAL
 The workman will apply the heat gun to the painted surfaces of the exterior and interior of the building
 The heat gun uses controlled temperature to apply heat, thus softening the layers of paint and creating it to blister for easier removal
 A scraper or putty knife is then used to gently remove the layers of paint from the surface
 Given the above, it is not necessary to submit drawings to show this process
