Proposed Light Fittings:

Overgate Entrance Lamps -

Proposed 2no. 300mm Dia. frosted glass and black bond lamp.

Ref # VE1_11877 Hortborne Lantern. Sailer's Description: The classic globe reproduction lantern. This lamp design is based around a polycarbonate sphere with embellishments. It is available with opal or frosted glazing along with options for half boarding and no boarding. Supplier - The Cleiton Emporium. T: 01523 730333 e: www.theclaitonemporium.com

Entrance Stairwell Bulkhead Lamps -

Proposed 4no. Classic prismatic bulkheads to replace missing bulkheads.

Ref # 749. See 240x120x170mm (hxdxw) Sailer's Description: A classic mid-century industrial bulkhead wall light, made entirely in Britain. Combining a cast aluminium body with a clear glass lens, the light is designed to be mounted on a wall and entered the space through the back plate or through the pipe extender. We were fortunate enough to stumble upon the original 1940's/50's glass mould for these lights, so the glass is manufactured using traditional techniques in the the same British glass foundry as the originals. Each light fitted with a new E27 bulbholder. IPx3 rated, so suitable for exterior use. Supplier: Transpothers Ltd T: 01453 766677 e: www.transpothers.co.uk
