Your comments on the planning application

Permission for a mansard roof was already declined and i do not understand how this can be submitted again. The height and size of this roof and more vertical structure will impact light . Most of the light my house gets is from the rear and this will be blocked. The roof would be significantly bigger than other neighboring homes which are all regular sloping roofs. My garden will be more shaded. We have already endured lack of light from 8 months of scaffolding which was erected before planning had been submitted. Windows looking out to my property have already been allowed which when open will be a huge impact on privacy -

i do want to lose light in addition to this and object strongly
to these plans.
