Re. Planning Application PA 2016/0934/L. 82, Hampstead High Street. NW3 1RE

Dear Mr Rose,

We have been away, and only this weekend seen the application on the window of the proposed new restaurant.

Our only comment, as the alterations appear to be within the present building, is that we would ask you to place a strict control on the efficient working of the Extractor & Fan, as we live next door, at 2a, Prince Arthur Road, formerly 87 Hampstead High Street as it appears on Ordinance Survey Maps, but changed about 30 years ago.

Our past experience has been that the smell of the cooking wafts across our premises when the wind blows in our direction, and is most offensive, especially in the summer when the garden is used all the time.

Your kind attention to this point would be most appreciated.

Kind regards
Derek Rose
