Title:  First name:  Surname:

Reference:

Date (DD/MM/YYYY):  (Must be pre-application submission)

Details of the pre-application advice received:

As the property is a flat and in a Conservation Area it does not benefit from permitted development rights for the replacement of a flue. We would also generally advise that such features are placed on the side and rear elevations of buildings in a Conservation Area to minimise the impact on the area. However, given the limited size of the flue it may be considered as de minimis and as such you may wish to apply for a Certificate of Lawfulness for a formal determination by the Council at a cost of £97.50.

#### 5. Lawful Development Certificate - Interest in Land

Please state the applicant's interest in the land:

#### 7. Grounds for Application

##### Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful:

I am looking to relocate the boiler from its current position which is in the bedroom at the back of the flat to the kitchen area at the front of the flat., this will require the flue to be repositioned through the front wall hence asking for advice.  
I have attached a drawing/sketch showing the front elevation with an indicative positioning of the new flue and some examples of where precedence has been set along the same street.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application:

If you consider the existing or last use is within a 'Use Class' in the Town and Country Planning (Use Classes) Order 1987 (as amended) state which one:

##### Information about the proposed use(s)

If you consider the proposed use is within a 'Use Class' in the Town and Country Planning (Use Classes) Order 1987 (as amended), state which one:

Is the proposed operation or use:  Permanent  Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

\*Following detailed discussion with the Principle planning officer (Josleen Chug) I think a Lawful Development Certificate should be granted on a de minimis basis for 8b Murray Street NW1 9RE, as follows:

1. Being mid-terrace, it is not possible to locate the repositioned flue on the flank walls
2. The proposed flue projects less than the extant 2No. neighbouring flues (identified in attached 8b Murray Street elevation)
3. Being 100mm diameter and dark coloured, the proposed flue is more sympathetic to the extant character of the Murray Street façade.
