2016/0477/P	Gracie Gledhill	The Old Crown 33 new oxford street WC1A 1BH WC1A 1BH	21/03/2016 16:39:09	PETITNOBJ E	<p>OBJECTION</p> <p>General Manager at The Old Crown Public House</p> <p>Any of this development would directly effect my footfall/ level of trade.</p> <p>Causing finical and emotional strain. It will not benefit the steeped history of the public house or area, ruining a strong selling point of the public house.</p> <p>Our licence states we must have a resident lving on site. This therefor directly effects me. s a late licence venue sound if an issue from the pub as it stands, closing at 3am, with added building work starting in the early hours, my sleep health and quality of life would be greatly effected for a very long time.</p> <p>We are a community, independent pub steeped in history. This is how we strive and would not be able to do so with such works.</p> <p>It will push trade away, effect health/sleep in a residency, as well as removing any history or place of interest in High Holborn.</p> <p>It is hard generally, yet this would be the end of a lot of independents that are an integral part of London.</p> <p>It is a shame that the area has not remained the gem of London it should, but anther new development would be detrimental.</p>
