2016/0940/P	Jean Stanger	12 Chalcot Road	21/03/2016 12:29:37	OBJEMAIL	I live next door to this property and I have no objection in principle to Ms Salmon's plans to enlarge the room on the third floor of her property and incorporate the roof terrace. My main concern is the design of the front dormer windows which do not seem in character with the facade of the building. The current glass doors are set back from the road, but as I read the plan, these would be flush with the front of the house. Sash windows in these dormers would be more appropriate in a conservation area.
