2016/0644/P	Jovan Mihailovic	5 Sylvan Court 145 A Abbey Road London NW6 4SP	21/03/2016 12:10:28	COMMNT	<p>I am tenant for more then 20 years in the Sylvan Court .</p> <p>I will emphasize this project as:</p> <ul style="list-style-type: none"> - energy efficient project(better thermal insulation –walls and windows) - healthy effects by reducing a level of damp with thicker walls and new double glazed windows ; - elderly friendly and baby friendly project , because of the lift(old lift does not work for more then 15 years) ; - reduce risk of mice(existing lift space is a home for the mice colony); - improve quality of life for the tenants; - good general effect for the owners of flats and surrounding building; - general improvement of an image of the famous Abbey Road - other positive effects. <p>No or very limited light redaction for surrounding buildings.</p> <p>I can`t see any negative effect .</p>
