2016/1088/P	celia Goreham	71 patshull Road	22/03/2016 18:41:09	OBJ	This proposal is considered by Bartholomew Estate and Kentish Town CAAC to be an over development of the site because it will take up most of the garden thus causing loss of green space also this will be detrimental to the environment. There also appears to be loss of light to surrounding dwellings . The proposed terrace will overlook surrounding gardens . The height of the extension is higher than the recommend height of extensions in the conservation area . This proposal does nothing the enhance the conservation area and we do not consider it should be permitted
