2015/6293/P	Francoise Findlay, Chairman	Elsworthy Residents Association 1 Lower Merton Rise NW3 3RA	23/03/2016 18:49:16	OBJ	<p>The changes to the previous application turn a pavilion into an underground bunker. It is appreciated that it might impinge less on neighbours although the roof lights will cause light pollution for others in Elsworthy Terrace. Despite the proposed green roof it is regretted that this structure, together with the enlarged kitchen, will reduce any opportunity of soft landscaping which is so valued in the Elsworthy Conservation Area.</p> <p>Please can it be made a condition that the space between the house and the structure be well landscaped and that any paths be of limited and permeable paving.</p> <p>There is also concern that the excavation for the structure may adversely affect trees in adjacent gardens.</p> <p>Like all building in gardens that reduces the green area to a minimum this application should be refused.</p>
