2016/0789/P	Paula Puszet	302 West End Lane NW6 1LN NW6 1LN	23/03/2016 12:29:40	OBJ	<p>RE the application. The work has already been undertaken last year so is this a retrospective application?</p> <p>One major concern is the position of a solid fuel flue less than 30 cm from the boundary wall, this is not shown on any of the elevations in the planning application pack. It comes out of the side of the garage adjacent to the boundary fence, runs outside and through the end of the garage roof eave</p> <p>We object to this on the grounds of smoke, burning embers etc. for any fire that will vent into the adjacent garden office located in the garden of 302 West End lane (planning permission ref: 2015/1335/P) – less than 2 meters, from the garage conversion. Also the vent from the flue will discharge into a bedroom and sitting room of the Garden flat 302 West End Lane.</p>
