2016/0421/P	Andrew Fischer	111A Goldhurst Terrace NW63HA	23/03/2016 10:52:06	INT	I agree with all of the comments made in relation to the proposal. Of particular concern would be any potential flooding in our back garden. I also note that two trucks outside our flat for a prolonged period will cause considerable nuisance. Any proposal to include a dental practice and to use the existing driveway that adjoins our flat as a commercial right of way is also concerning.
2016/0421/P	Steven and Mirela Bruck	111C Goldhurst Terrace London NW6 3HA	24/03/2016 00:31:54	OBJ	<p>Dear Sirs</p> <p>We write as owners of a flat within 111 Goldhurst Terrace, having also an interest in the freehold of the entire property.</p> <p>Our flat looks out onto the side of the proposed development and our garden is immediately adjacent. Our property will be seriously affected by the inevitable disruption which will be caused by the proposed building works, by the instability which may be caused by the extensive basement development and the increase in the height and bulk of the property which immediately faces our windows and will restrict our light and change the appearance and character of the immediate area, The construction traffic to and from the site will pass immediately beneath our flat which bridges the area above the access road.</p> <p>We share the grave misgivings of the Combined Residents' Association of South Hampstead and of many neighbours, and believe this this a substantial overdevelopment which appears to be increasing with each application. We particularly share concerns regarding the impact of the basement development which seems out of all proportion and relies upon the skill of contractors who already have mistakenly installed scaffolding without authorisation on our property which had to be removed.</p> <p>We trust therefore that the Council will protect our reasonable interests and those of many similarly concerned neighbours and will not permit such an excessive development..</p> <p>yours fathfully</p> <p>Steven and Mirela  Bruck .</p>
