Local residents, visitors to the area, postal workers from Mount Pleasant, police from the station opposite, tourists from nearby hotels, youngsters from the backpackers' hostel, all find a welcome in the friendly, extremely well-run 'Carpenters'. Wakes are sometimes held, weddings and birthdays celebrated, without interruption to the daily life of the pub. The long-established darts team is flourishing, so are the music, quiz and karaoke evenings, all of that a great asset in a community where such inclusiveness is becoming rare.

The proposed application will drastically diminish the Carpenters equality. The intended layout would abolish all possibility of the darts team, and give no latitude to the musical or celebratory gatherings. The presence of so many tenants above, would inhibit the normal life of this successful pub, and lead to much conflict. There are "Foodie" pubs in the area, essentially "touristy" ones, but only the Carpenters retains the warmth & vigour of well-used London pub, and that

depends on its physical circumstances, which are endangered by the proposed application.

Regular here for years, always full of friendly people and tourists from all over the world who stay in hotels nearby.

Not many pubs left in London as nice an atmosphere as this.

One of the few great darts pubs too.
