

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2016/0892/P	A M Fox	15 MAKEPEACE AVENUE highgate N6 6EL N6 6EL	25/03/2016 11:41:59 INT		<p>I do not have an issue with two side gables.</p> <p>My issue is that the existing west side dormer has been built gable end, not hipped, as all others on the street are. This looks overly bulky. There were several objections to this design in the original application.</p> <p>If they are given consent for this application, it should be on the basis that BOTH side dormers be hipped, to reduce bulk, retain symmetry and fit in with the street scene.</p>
