2016/0750/P	Stephen Winter	2nd & 3rd Floor Flat 117 Fortess Road London NW5 2HR	30/03/2016 22:51:20 INT		Further to my earlier comments concerning the drainage pipework running down the rear wall, I understand that they may remain insitu as the external wall cannot form part of the internal space of the basement extension. That being the case, I would still have a concern regarding access to the drainage pipes after the extension has been built.
