Attention: Zenab Haji-Ismael

Dear Sir/Madam,

Kingsgate Primary School

Planning permission was granted on 30 October 2015 (2015/4822/P) for the following:

“Erection of a single-storey classroom to the south west of the site incorporating a green roof and photovoltaic panels and associated external landscape and a pedestrian entrance from Messina Avenue.”

Condition 4 attached to this condition states the following:

“Samples of materials shall be submitted to and approved in writing by the local planning authority before the relevant parts of construction work are begun:

- (a) A sample panel of the proposed brickwork showing the brick, bond and pointing profile.”

As you are aware, a panel of the proposed brickwork has been delivered to the site and you are invited to visit the site to view the proposed brickwork in situ.

I also attach the Material Specification, which sets out the details of the proposed brick, bond and mortar.

The application seeks approval for the panel and Specification and the discharge of this condition.

If you have any queries, please get in touch.

Yours faithfully,

Graham Harrington
GHPA
