Reason:

For the avoidance of doubt and in the interest of proper planning.

#### Informative(s):

- 1 Reasons for granting permission.

The replacement of a casement window with a sash window to the rear and the installation of a new window opening at second floor level on the side elevation are considered to be acceptable alterations that would maintain the character and appearance of the property and this part of the conservation area. The proposed rooflights on the rear elevation are considered to be an acceptable minor alteration that would have limited visibility.

Due to the nature and location of the proposals, they are not considered to cause any adverse impacts on the amenity of adjoining residential occupiers. The new window opening would be obscure glazed and fixed shut to prevent any loss of privacy.

No objections have been received prior to making this decision. The planning history of the site has been taken into account when coming to this decision.

The proposal is considered to preserve the character and appearance of the conservation area. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015 and paragraphs 14, 17, 56-68 and 126-141 of the National Planning Policy Framework.
