- GENERAL NOTES:**
1. Ensure that all working drawings and calculations are approved by Building Control or Planning before commencement of building works.
 2. Inform the Building Control department that the works are about to commence on site after receiving an approved decision from building control in writing.
 3. Verify boundary lines & ground conditions including checking positions of all gas, electrical, water & sewerage services. The contractor shall be responsible for establishing own boundary lines on site. The contractor shall be responsible for checking land ownership even if drawings have been approved by the planning and building control departments. If uncertain a land search should be carried out by the homeowner/contractor.
 4. DPL are not responsible for builder changing building methods from proposed works. The client is responsible for purchasing additional materials and covering extra engineering design costs for any additional structural design change on site from the start to end of building works requested by building control or any other third party's instruction during building works.
 5. Owner is responsible for purchasing additional materials and covering extra engineering design costs for any additional structural design change on site from the start to end of building works requested by building control or any other third party's instruction during building works.
 6. Request a copy of the Party Wall Award where works affect party wall or involve excavations within 3 metres of adjoining buildings.

7. Where works involve demolition to ensure that all elements of the building and its contents are accurately recorded for on site that all necessary propping and temporary supports are in place.
8. Works carried out under a building notice or prior to approval of drawings one of the contractors/owners risk. (all DPL drawings must be approved before works commence) Builders building without formal approval of drawings & building control approval is at their own risk.
9. Any discrepancies, either between written and site dimensions or between this drawing and other consultant's or suppliers drawings, should be brought to the immediate attention of DPL, before executing the structural, mechanical and electrical works. This shall then be noted on drawings on site. If not noted on drawings on site, the contractor shall be responsible for any discrepancies. If not noted on drawings on site, the contractor shall be responsible for any discrepancies. If not noted on drawings on site, the contractor shall be responsible for any discrepancies.
10. All of DPL structural designs are subject to loadings being 1m deep, if however the existing foundation type and building control will need to advise on a different method of construction.
11. All wall/s which have been designed to be removed on plans are to be checked on site by building control inspector/builder for load bearing or non-load bearing status before purchase of steel/s. If non-load bearing then steel/s should not be ordered. No refund or claim can be given against DPL on the design/contractor changed for these steel/s.

PLANNING NOTES:

1. All new proposed roof and wall finishes on this drawing to match existing materials.
2. All new proposed skylights shown on this drawing will be designed not protrude more than 150mm above the existing roof plane.
3. All new proposed rooflights shown on this drawing which overtop other property's are designed to be non opening and of obscure glazing.
4. For a permitted development lot design the dormer by 200mm on this note is a confirmation that it is in line with current building regulations.
5. All works to be carried out in accordance with the latest appropriate codes of practice and to comply with current building regulations.
