

GARDEN PLAN
SCALE 1:50

Hard Landscaping
Riven slate paving pointed in sand and cement mortar

Temporary Structures
Timber clad, timber frame bin storage unit.

Earth Works
No earthworks, grading, mounding or changes to ground levels are required

Privet bush
Privet bush to be Evergreen Ligustrum Ovalifolium. To be planted in top soil and multi purpose compost. The height will be 1m - 1.5m tall.

Magnolia Grandiflora
Magnolia tree to be Evergreen Magnolia Grandiflora (Bull Bay) and will be planted in rich top soil and multi purpose compost. The tree will be heavy with a canopy of 12-14cm. The height should be 2m-2.5m tall.

Maintenance

- For the first 3 months the Magnolia and Privet bushes will be watered at least twice a week. If it rains a lot, it won't need so much.
- Planting is planned between March to May to avoid the heat. The tree will be planted with the fish, ideally March.
- The tree will be maintained via regular watering (as much is necessary) and feed (every 2 months to encourage roots).
- Year 1: The tree will be trimmed so much whilst it grows and becomes established.
- Year 2: The tree will be trimmed so much whilst it grows and becomes established.
- Year 3 and onwards: The tree will be trimmed every two years depending on the growth achieved over the time.
