ABOUT ASGARD

Asgard providing quality metal storage

Asgard Secure Steel Storage is a division of Flexiform Business Furniture Limited, a leading supplier of steel storage systems for over 40 years. Asgard can draw on a wealth of metal fabrication experience with a long history of engineering and manufacturing excellence.

Flexiform and Asgard work hand in hand supplying some of the largest Government contracts throughout the UK. As a business we are ISO 14001 and 9001 accredited with prestigious, established clients such as the Parliamentary Works, the West Yorkshire Police Force and many local authorities.

Asgard design and manufacture metal sheds, bike storage and motorcycle garages of the highest quality, used across the UK in many industries.

With an unrivalled reputation for quality and innovation you can be sure of our long term commitment to supplying quality products.

ABOUT ASGARD

Why metal, why not wood?

WHY METAL AND NOT WOOD?

One of the most common questions Asgard get asked is "why should I buy metal when it will just rust? Why should I not buy a cheaper, wooden shed"? All Asgard sheds are made from thick, galvanised (weatherproof) steel and coated in a polyester powder coat paint. This combination of processes makes the steel not only weatherproof but exceptionally tough and durable. Asgard use only zinc coated (rust resistant) screws for assembling our sheds.

WEIGHT

Good quality metal sheds are heavy. Asgard sheds are made from thick steel and include an integral metal base. So an Asgard shed is very heavy! With weight comes quality and security. Asgard sheds can weigh over 60 stone so you can be sure of strength and security. With Asgard units you can choose to fix your unit to the floor using our (included) ground fixing kits, giving you the maximum security for your tools and equipment. On average our units are 5 times heavier than the equivalent sized product from other companies*.

SECURITY

A metal shed has a metal roof and metal doors. A wooden shed is weak in comparison and can be simply "kicked" in. An Asgard unit has integral stiffeners, internal shoot bolts (depending on model) double folded joints, hidden fixings, integral all metal floors, pick resistant locks and ground anchor points. Add to this (on selected models) our internal roof clips and you really have the maximum security possible. Many Asgard units have been approved by the UK Locksmiths Association or are LPCB rated.

MAINTENANCE

Other than a periodic wipe down and oiling the hinges, Asgard units are virtually maintenance free.

- No annual felting of the roof.*
- No repainting.*
- No rotten panels to replace.*
- No doors blown off in the wind.*
- No leaks.*

WARRANTY

All Asgard storage is covered by a 10 year anti perforation warranty, giving you the confidence that your Asgard unit will provide you with many years of secure storage.

Asgard Shed Construction

ASGARD FEATURES

Key features and benefits of Asgard storage

Rear of locking mechanism

Dead Bolt

1. GALVANISED STEEL

Every Asgard product is made from tough, galvanised steel. Making Asgard sheds secure and weatherproof.

2. LOW MAINTENANCE

Unlike wooden sheds, metal sheds require very little maintenance – giving years of trouble free storage.

3. 10 YEAR WARRANTY

All Asgard sheds are supplied with a 10 year warranty as standard.

4. NO EXPOSED SCREWS

Asgard storage is built inside out - there are no exposed external fixings or sharp edges making Asgard sheds both secure and safe.

5. EASY ASSEMBLY

Asgard sheds come with simple step by step instructions for easy home assembly - An installation service is also available.

6. PICK AND DRILL RESISTANT LOCKS

Fitted to most Asgard storage units to provide the best possible security.

7. UNIQUE SHED VENTILATION

A unique shed ventilation system is in every Asgard shed helping to maintain air flow inside even when the unit is locked, so minimises the build up of condensation inside the unit.

8. ACCESSORIES

Asgard units are pre-drilled for a range of storage accessory packs including shelving and hooks.

9. INTEGRAL METAL FLOOR

Asgard sheds are supplied with an integral metal floor. This floor adds strength and stability to the units providing even more security to the unit – every Asgard is supplied with ground bolts allowing you to bolt the unit to the ground.

10. APPROVED STORAGE

Asgard storage is Locksmiths approved, Insurance approved and industry approved!*

11. MADE IN THE UK

Every Asgard is designed and made right here in the UK.

*Models may vary

Bike Storage

Twin Bike Locker-2 Bikes**

a to b

STORE & SECURE TWO BIKES

The 'Twin' bike storage unit is the perfect way of storing two bikes securely in a discreet manner. Designed as a space saving storage unit, the twin bike store is ideal for areas where space is restricted but bike security is important. Unlike other bike stores the twin bike locker is accessed from the end so the width of the unit is kept to a minimum - ideal for use down the side of a house or flat.

The Twin Bike Locker is suitable for adult or childrens bikes and includes 2 kit hooks for storing your bag or helmets with your bike. The unit is made from tough galvanised (weatherproof) steel featuring a tough 3-point (pick & drill resistant) locking system. A stylish vented front allows air to flow inside and keeps condensation to a minimum.

"The product is excellent and I am happy to recommend it to anyone"

Anonymous

"All together by far the strongest unit we have tested"

Ealing Cycling News

REVIEWING THE CYCLE STORAGE X 8

"The level of detail included in the build is impressive and it comes with everything you need, though it must be sited on either concrete foundation or solid patio. The lock on the door is a triple point contact system using Yale-style cylinder keys. You can also buy a wireless infa-red alarm from Asgard, and if anyone were to try and break in, the fact is essentially a huge steel drum means they at least won't be able to do it in silence. Overall if you are a typical domestic male you will be in shed heaven with the Asgard. The level of security it offers is second only to a well-padded shipping container."

REVIEWING THE ADDITION BIKE SHED

Cycling Plus magazine rated our store 9/10 and wrote, "The best bike storage we've seen by a long way. Storage is always a problem for cyclists. Our bikes are often the second most valuable items we own after the car – sometimes they're worth a lot more – so we tend to bring them into the house. But bikes just aren't designed for leaning up in hallways or stuffing under beds. So if you're fed up tripping over your bike around the house and want to keep it and all the other mucky cleaning, tweaking and riding paraphernalia outside the house where it won't get nicked – one of Asgard's bike stores could be what you're after."

REVIEWING THE ACCESS BIKE STORAGE

"Usability of the unit is top notch. Access is gained through large double front doors as well as the whole roof of the unit lifting up making getting bikes in and out a breeze. The inside itself is particularly spacious, initial concerns that 4 bikes was a little optimistic proved unfounded with 4 bikes fitting with ease along with my trimmer and tool boxes!..."

"For those of you used to having your bikes inside your house will of course be concerned about protection from the elements. No concerns here, all access points are well shielded from the elements and the galvanised steel construction should give great protection over time."

REVIEWING THE CENTURION

It's big, expensive and tough - but it can also get bigger with a series of extension packs. Ideal if you're a collector or someone with a large tourer. It's the only bike shed that is UK locksmith approved and - better still - the size and weight means that if you have your bike stored in this overnight, your insurers class it as 'garaged'.

REVIEWING THE ANNEXE BIKE STORAGE

'We were really impressed with the Asgard Annexe we featured in the February 24 issue with its room for up to three bikes. But knowing you lot as well as we do, we also know that most will own more than three bikes (don't worry your secret is safe with us!). Which got us to thinking about what we would do if we wanted to store more. Enter the Asgard storage garage... With a floor area measuring five foot by nine, it'll hold quite a few more than three bikes. In fact it's almost high enough to stand in and can be fitted with a hook rail and shelf so there are several options when it comes to storing bike stuff in it.'

REVIEWING THE ADDITION BIKE SHED

'First impressions are good, the unit really does fit 3 bikes as the photographs show the shelving unit makes a big difference to store the usual stuff. The unit feels rock solid and very secure and the lock should be enough to deter most people. The model up allows you to add your own padlock. The whole thing can be secured further by using ground bolts and there are optional ground anchors too...'. "I prefer this over the Trimetal model, the shelving and hooks are a nice touch and not being top opening means you can store things on top of it.'

RiDE

REVIEWING THE ANNEXE BIKE SHED

'It is as solid as it looks. It's made from 1.2mm thick galvanised steel panels and weighs an impressive 103kg. It's not going anywhere easily, and for further security the metal base can be bolted to the floor. There's a three-point locking system, and the main lock is a Euro cylinder claimed to be pick and drill resistant. It arrived flat packed on the back of a lorry. There's quite a few pieces, and the biggest bag of bolts I've ever seen in my life. Fortunately my fear at constructing it proved unfounded, the instructions are easy to follow and it goes up easily in a short space of time.'

REVIEWING THE MOTORCYCLE PLUS

'Asgard is a company based in Bradford, that makes high quality, steel sheds and garages in all kinds of sizes. I've got a couple of mates who have on it its units and so I've seen the quality first hand. The Motorcycle-Plus unit looked perfect for me – big enough (5ft wide x 10ft 9in deep x 6ft 7in tall) for two bikes, counts as a garage for insurance purposes (and is a darn sight more secure than most up-and-over garage doors), but needs no planning permission. At £1199, it's a lot cheaper than building a garage too.'

REVIEWING THE ANNEXE

'This is a beast of a bike shed. Comes in green or ivory it can store three bikes (including, and I've tried, bikes with baskets), plus helmets, shoes and all other cycling paraphernalia. The shed is made from thick galvanised steel panels (11 in total), more than 150 screws, brackets and fixing devices and has a heavy-duty integral metal, 5-point locking system; the main lock is a Euro cylinder which is claimed to be pick and drill resistant. It needs around 2 square meters of outdoor space and a flat, concrete surface to sit on. Asgard can construct it for you - but if you try it yourself you will need a powerdriver screwdriver and a friend to help.

REVIEWING THE MOTORCYCLE GARAGE

'The Asgard Motorcycle Garage was put through rigorous testing by the UKLA to analyse the overall security and build quality. From delivery through to self assembly. The UKLA did it all. We are happy to report the Asgard motorcycle garage did pretty well indeed!! The Asgard motorcycle garage has been designed and manufactured here in the UK (Yorkshire) to the highest standards and represents the best in home grown UK engineering and manufacturing. Made from fully galvanised steel, this weatherproof motorcycle garage features a drill and pick resistant lock, a fantastic 5 point locking system and dead bolts!'

REVIEWING THE ANNEXE

'Its credentials looked good on paper: 5-point locking system, with reinforced doors, panels and hinges etc.. In addition and it has received LPCB approval. We wanted to test out how strong it was and how much of a beating it would take. As a result we decided to give the Annexe a going over with a hammer, crank and screwdriver (basic tools in a bike thief's armoury) to see what it could withstand. You can check out how we, and the Annexe, got on in our video.

Conclusion: It is green, made of steel, heavy duty and can withstand a proper pounding. We know because we tried to give it one!'

REVIEWING THE MOTORCYCLE

'Spending £1300 on a metal garage is a serious decision, especially when the same amount of money could buy one hell of a wooden shed. But after a few months using this Asgard garage I've been converted. If security is an issue then this could be the answer. Secure locks give the doors a sturdy feel, and steel sides and roof would defeat all but the most serious of tools. The interior has a plug socket and vents so wet bikes can dry and there's a shelf for your helmet. It's designed for one bike but you could squeeze two bikes in. It only takes up minimal room, but needs a concrete or slab base.'

Asgard Feedback

Reviews and comments from customers

"An Asgard shed is one of the heaviest and best quality sheds on the market and so their self weight and goods stored within them often mean that anchoring the base is not required for sheltered locations".

John
The secrets of shed building.com

"We couldn't be happier with our shed. We've cleared out our hallway of scooters, bikes, helmets, travel car seats and even the pushchair so now have so much more room. Especially happy as it's really secure".

Nessie
Twin Bike Locker

"Very happy with delivery, requested that they call an hour beforehand so I can make sure I'm in - called as expected and arrived within the hour. Unit took my partner and I about 1.5 hours to build. Very happy with the build quality and very happy with the security".

JJ

"Feels very secure and solid, worth every penny to protect your pride and joy"

Paul B
High Security Bike Locker

"Excellent quality - keeps my bike dry and very secure without taking up too much space in the garden. I would definitely recommend."

S-Gas
Single Bike Locker

"The whole process was very well managed from the first order to deliver and staff were helpful and a pleasure to deal with. My new and old bikes are very happy in their new home!"

Jim
Single Bike Locker

"I thought the quality of your product is excellent. The shed it replaced was a cheapo from B&Q or similar, it was not nearly as good quality, much thinner material, loads more parts, much harder to assemble, never looked too good. The other larger shed (still in use) is better quality, still not nearly as solid as Asgard, but took us days to put together :-(. When it starts falling to bits, we'll replace it with an (Asgard) Trojan".

"Now some 4 years old, this store is still in very good shape. Weather & burglar proof. Storing 2 bikes, pots of paint, garden cushions and lots more. Arrived on time. Managed to assemble and secure to the paving slab base single handed."

Anitadee
Addition Storage

"Huge and impressive Asgard bike shed... I'm also thinking of buying on of your extension modules to make it even bigger!"

EEF
Locksmith Approved Bike Shed (6 Bikes)

"The bike shed is excellent, very secure and weatherproof. We have had it for a couple of years with absolutely no problems."

Huds
