**Response:**

This place is already operating as a Cafe and has been for a long time. The chairs and table outside block the pavement and the customers cause a major amount of noise particularly at weekends when they stand outside and block the pavement to pedestrians. They also keep parking in private parking places in Chalcot Gardens and are often rude when asked to move their vehicles.

It would be far more pleasant for the neighbourhood if the seating could be moved inside and locals could pass by on the pavement instead of having to walk in the road.
