Application No: 2016/1851/T **Consultees Name:** Nancy Mayo **Consultees Addr:** Redington Frogmal Association **Received:** 17/04/2016 00:00:38 **Comment:** OIBJ **Response:** This is a healthy tree and forms part of a rear garden wildlife corridor between Platts Lane and Hollycroft Avenue. The berries are of particular value to birds. The tree is also of aesthetic value and can be seen from the rear windows of neighbouring properties.

No justification is offered for the proposed felling and we very much hope that Camden will reject this.
