Comment: COMMENT
Response: As a resident of Camden Square and a concerned member of the public, I and several of my associates deeply object to the removal and poisoning the stump of this tree. We do not object to a reduction . Please rethink. Mature trees improve the air quality in this polluted borough and Eucalyptus is especially renowned for it's properties. The removal of this tree will also have a most undesirable on nature and the animals and insects living in it. Total objection I am afraid.
