2016/1129/P	Michael Arditti	Flat L 37 Regent's Park Road London NW1 7SY	16/04/2016 16:49:24	OBJ	I wish to object to the current proposal. I live on Regent's Park Road and directly overlook the property in question. There is already a roof terrace - or, more accurately, a roof dump on the adjoining mews house, which is a terrible eyesore. I cannot believe that, when that application was granted, the officers knew that, for much of the year, it would be a dump for garden furniture and equipment under flapping tarpaulins and then for the few summer months it would house a bouncy castle and other ugly machinery. I suspect that the same will happen here, further destroying the tranquillity and prospect of the neighbourhood.
2016/1129/P	Jesper Groenvold	19 Albert Terrace Mews nw1 7ta	15/04/2016 10:21:26	SUPPRT	I believe this new application has tried to consider the views of other people in the area and has been greatly reduced in scale compared to the prior application. In view of the number of other roof terraces in the area, I believe it would only be fair for Mr. Cowan to be granted his terrace as well.
