Screening Room Elevations - Tara Bernerd & Partners

B1. fitted carpet / B2. velvet curtain / B3. velvet upholstery / B4. inset leather tray / B5. ceiling paint

Screening Room Finishes - Tara Bernerd & Partners

4.3.1 Screening Room

The proposal for the Screening Room is that the existing Boiler Room will be adapted to incorporate tiered seating with a small integral bar area.

The facilities will include all the audio-visual requirements for the screening of premieres, live shows and TV events and can also be used for small lectures and talks. An additional 1200mm dia satellite is required which is proposed to locate on the 10th floor roof with the other satellite dishes.

The fit-out proposed by Tara Bernerd & Partners includes a decorative coffered ceiling, carpet floor, wall mouldings, velvet curtains and velvet upholstery.
