The Council has considered your application and decided to **refuse** listed building consent for the following reason(s):

Reason(s) for Refusal

- 1 The proposed side extension, by reason of its scale and siting would be detrimental to the character, appearance and setting of the host listed building. The proposed extension therefore fails to respect the special historic and architectural interest of the listed building contrary to Policy CS14 (Promoting high quality places and conserving our heritage) of the London Borough of Camden Local Development Framework Core Strategy; and Policy DP25 (Conserving Camden's heritage) of the London Borough of Camden Local Development Framework Development Policies.
- 2 The proposed internal alterations and loss of historic fabric through the creation of new openings within the existing side elevation would give an unbalanced composition and false sense of hierarchy within the plan form at ground floor level, and would therefore result in harm to the special architectural and historic interest of the listed building contrary to policy CS14 (Promoting high quality places and conserving our heritage) of the London Borough of Camden Local Development Framework Core Strategy; and policy DP25 (Conserving Camden's heritage) of the London Borough of Camden Local Development Framework Development Policies.
- 3 The proposed alterations to the rear fenestration and the installation of a staircase would be incongruous additions to the host building which would result in the loss of historic windows and cause harm to the overall composition and proportions of the special historical character of the listed host building, contrary to policy CS14 (Promoting high quality places and conserving our heritage) of the London Borough of Camden Local Development Framework Core Strategy; and policy DP25 (Conserving Camden's heritage) of the London Borough of Camden Local Development Framework Development Policies.
