Your comments on the planning application

The Seven Dials Trust rarely comments on planning applications but in this instance is moved to voice its objection to the proposals, which completely obscure the façades of a building of merit that contributes positively to our conservation area, particularly at this high-profile location.

It is very difficult to see from the drawings the true effect of the proposed 'greening' but from what can be seen the excessive nature of these proposals result in visual clutter that is inappropriate in a conservation area.

Planning Application Details

The applicant has not provided enough detail to assess the proposed lighting scheme and its effect on the facades. The examples provided are not directly comparable, as they are not located in a central, high-density conservation area. A proper lighting visualisation is essential, particularly given the prominent position of the building.

We therefore request that the application be rejected.
