

Dear sirs

Re Application 2014/6672/P. Associated reference 2012/5391/P

I write as I am concerned about the proposed planning application for number 192 Haverstock Hill NW32AJ.

I am a member of the Globe Tennis Club which it will affect.

Yours faithfully

Suzanne Rose

I write as I am concerned about the proposed planning application for 192 Haverstock Hill, London NW3 2AJ -

Regarding Application: 2014/6672/P  
Associated Reference: 2012/5391/P

The main concern is the proposal to increase the width and height of the building which would decrease the already narrow thoroughfare between the current blocked in area and the high wall of the side of Belsize Park tube station. This would also affect cars, potentially creating a blind spot.

It would change the openness of the way from rest of shops, and a danger: to walk down and face a wall before getting to the station; there are a lot of people coming out of the tube/ going into the station/ and it is always difficult to manage the access without harming anyone as it is... with also a lot of buggies...and mums strolling down from the wider area...

Best regards  
Cat

Dear Planning Department,

I write as I am concerned about the proposed planning application for 192 Haverstock Hill, London NW3 2AJ.

Regarding Application: 2014/6672/P  
Associated Reference: 2012/5391/P

The proposal to increase the width and height of the building would decrease the already narrow thoroughfare between the current blocked in area and the high wall of the side of Belsize Park tube station. This would also affect cars, creating a blind spot.

An acceptable plan would reduce the width and height of the proposed building.

Regards,  
Mark English
