6 April 2016

Planning Application 2016/1117/Banqor
Wharf Georgiana Street London NW1 0QS.

Please treat this letter as my objection to the above application on the grounds of the development's height, massing along the canal edge. I consider that it is out of scale with all neighbouring developments along this section of the canal.

In addition this development will affect the light reaching the canal, towpath, and Reachview Close residents.

The developers have already removed water fowl nesting platforms; and the scenic willow tree adjacent to St Pancras Way has: no place in their plans, as far as I can observe
