I would like to object to the above-referenced application on the basis that:

- it's additional height will rob much-needed light from the north-facing gardens to the rear of the property in question;
- is out of keeping with the character of the neighbourhood and the adjoining terrace of properties; and
- will, in the course of construction, entail huge disruption to the many neighbouring properties both at number 6 and also in adjacent buildings.

Please let me know if you have any questions.

Fergus
