

Dear Sir or Madam,

I have received a letter regarding the intended works to a tree in the conservation area in the garden of 113 Goldhurst Terrace. The poplar tree which backs on to my garden on Belsize Road is both enormous and extremely fast growing. It is an ill looking tree and I have been advised that it is highly unsuitable for an urban garden environment. It is also suspected of causing widespread cracking to my house in addition to blocking virtually all light and so I therefore fully support the proposed works.

Kind regards

Ruth McCall

148 belsize Road, London NW6 4BJ
