

WRAP Home Composting, 25/09/2009, Compost Converter 220ltr

The compost converter was placed on the roof, as we don't have a garden, and positioned on some off cuts of plywood which was previously purchased from Leyland.

The compost converter was purchased to teach my children the value of recycling and how important it is not to waste food. And so we proudly begun to produce our own compost to grow our small bits of vegetables.

Since the last few years Camden Council has started the food waste collection and I can buy compost from Regis Road Recycling Centre and as the boys had grown up I decided to pass the compost converter on.

I am attaching the Leyland receipt for the plywood off cuts dated 30/08/2009, unfortunately it's a bit faded just like the majority of the other receipts which I have found.
