2016/1295/P	Jeremy Howe	19 a Nassington Road London NW32tx	24/04/2016 21:38:01	COMMNT	<p>We are satisfied with the plans for the new extension at number 17 Nassington Road but with the following provisos</p> <p>(i) That the height of the lower part of the extension does not exceed the height of the garden wall between our property (no 19) and No 17</p> <p>(ii) That the full height of the extension is no higher than on a level with the roof of the extension in our flat at No 19a</p> <p>(iii) That the distance between the extension at its full height and the garden wall adjoining No 19 is the same distance from the garden wall as is our extension in No 19. Otherwise our kitchen window will have its natural light severely blocked.</p> <p>(iv) That both the interior and exterior building work is confined to reasonable daylight hours during weekdays only and that no intrusive work is carried out outside of these hours in a manner that can be construed as anti social.</p> <p>(v) That any skips and builders' vehicles do not take up valuable parking spaces for unnecessarily long periods.</p> <p>(vi) That the railings on the terrace on the roof of the extension extend out no further than shown in the plans. To do so would compromise both our privacy and security.</p> <p>(vii) That they effect repairs to the garden wall adjoining our properties which is their responsibility and which is falling down.</p>
