| 2016/1500/L | Richard Simpson for Primrose Hill CAAC | 12A Manley Street London NW1 8LT | 22/04/2016 11:01:32 | OBJ | <p>ADVICE from Primrose Hill Conservation Area Advisory Committee 12A Manley Street, London NW1 8LT</p> <p>12 April 2016</p> <p>15 Prince Albert Road 2016/1500/L</p> <p>No objection to cameras A and B which are located discreetly and have no adverse impact on either the character and appearance of the conservation area, or on the privacy or amenity of neighbouring residential property.</p> <p>We object to Camera C which is located too high and too visibly on the rear elevation. It would have a harmful impact on the Listed Building, by its obtrusive location, and would be harmful to the privacy of neighbouring residential property. We are also concerned that its location could set a precedent for other similar installations in the conservation area. We know, from other cctv applications for Listed Buildings, that it is possible to find more discreet locations which take advantage of the details of the building, for example the shadowed area under a window cill. The protection of the privacy of neighbours should also be addressed. We note that this camera is already installed, but only within the last few months.</p> <p>Richard Simpson FSA Chair</p> |
