

Dear Sirs,

I own the garden backing onto the garden of the above and am also the owner of the four plane trees that you have recently protected. I particularly agree with one in particular of your reasons for objecting to the felling of my planes which is that the trees along the boundaries of the gardens between Greencroft and Aberdare Gardens form a continuous line, and that are a considerable environmental attraction to this conservation area.

Although the two willows are not fully mature, they do definitely add to this green tree area and I therefore do object to their being felled.

Yours sincerely,

Susan Hadida
67a, Greencroft Gardens
London, NW6 3LJ.
